Yasutomo Mineral Paper Artist Pads

Yasutomo Mineral Paper is made from 80% calcium carbonate which provides a unique surface for water based or dry media, and is a great alternative to wood-based paper. Tear-resistant, foldable, and non-wrinkling, your media will not bleed through, even when soaked. Mineral paper is a great surface for almost any media wet or dry, and can be ink jet printed (results will vary depending on the printer). Its bright white vellum-like surface allows for crisp lines, saturated colors and just the right amount of absorbency for a wide variety of creative techniques.

OFF LIST

Faber-Castell's Albrecht Durer Watercolor Pencils provide artists with great versatility of expression when drawing, shading, and painting in watercolors. Rich pigments dissolve completely when blended with a wet brush. These high quality watercolor pencils are lightfast, can be reworked and lifted when water is reapplied, even after they have dried. The colors are matched to all other Faber-Castell lines.

American Journey™ Artists' Watercolor

If you've tried American Journey Artists' Watercolor before, no doubt you've heard the claims "big" and "bold" and "value". American Journey is still the best value in watercolor - brilliantly bold, wild artisan colors made in small batches and milled to the smallest possible micron to ensure the highest quality and potency that allow you to make more art and spend less money! With suggestions from many professional artists, we've expanded the range to 113 colors and improved our watercolors to be a 2-in-1 formula to perform just as well straight out of the tube as they do dried in pan form. With the addition of 48 professional pigment sticks, we've rounded out our little brand, which has become one of the biggest names in the industry. Plus, it's the only brand we are aware of that offers this guarantee: "If you're not 100% satisfied, neither are we, and you have up to 365 days to return for a full refund." **Available in 37, 15, and select 8 ml. tubes, and Sticks.** [See pg 45 of our 2023 Catalog or go online for complete color listing.](#)

There is little doubt that at some point in your art career you were told to buy Winsor & Newton Watercolours. That's probably because they invented the moist watercolour and for more than 170 years Winsor & Newton have worked diligently to hone their line in accordance with their founding principles. That is to create an unparalleled watercolour range which offers artists the widest and most balanced choice of pigments with the greatest possible brilliance and permanence. Each colour within this wide and balanced spectrum of 109 colours has been selected and formulated so artists can have a unique palette that best suits their working style. **Also available in 5ml, 37ml, and half pans online at [cheapjoes.com](#).** [See pg 62 of our 2023 Catalog or go online for complete color listing.](#)

Sennelier Abstract 3D Liners were created to be a handy all-in-one application and paint storage tool for precision line work, relief, and contour effects. 3D Liners are developed with a satin finish using the same paint formulations as the original Abstract Heavy Body Acrylics. Each squeezable 27 ml applicator has a screw-off top with a precision tapered tip and is refillable, both for preventing wasted paint and for travel.

Golden Heavy Body Acrylic

Golden Heavy Body Artist Acrylics are known for their exceptionally smooth, thick, buttery consistency. It contains the largest assortment of unique pure pigments available to the professional artist. These colors offer excellent permanency and lightfastness. There are no fillers, extenders, opacifiers, toners, or dyes added. Heavy Body colors contain no additives, such as matting agents, therefore the gloss of each color will be different. **Available in 2 and 5 oz. tubes and 4 oz. jars.**

Gamblin Artists' Oil Colors

Working closely with conservation scientists, Robert Gamblin's Oil Colors use only pure lightfast pigments and alkali-refined linseed oil. The first thing you'll notice is a more granular consistency as each pigment is milled the same number of times, which some artists prefer, because it allows each pigment to retain its individual characteristic - a quality sought after by many traditionalists.

Available in 37 ml. and select 150 ml. tubes.

Kilimanjaro™ Original White and Natural White Watercolor Sheet Paper

When it comes to watercolor paper, you've reached the peak with Kilimanjaro due to its professional performance and affordable pricing. 100% Mould-Made from 100% pure cotton rag, Kilimanjaro™ is internally and externally sized with synthetic gelatin sizing, Acid-Free and Archival, and free from optical brighteners, dye, or bleaches. Original White is "brighter than bright" for colors that pop and is still the whitest watercolor paper on the market. Natural White, like it's whiter sibling, works well for all forms of water media, printmaking, and especially drawing applications with it's classically warm white appearance. 5 sheet minimum purchase required.

Raphael Textura Synthetic D Brushes

The tufts of these brushes are shaped like the letter "D" and are made with Raphael's best synthetic fibers for oil and acrylic. With a soft side along one edge of the tuft, and a flat and springy side along the other, these brushes work well for making sharp marks, working with thick colors, and blending, smoothing, and dry brush textures. An unusual ferrule crimped only on one side makes this unique shape possible.

Princeton Series 6300 Dakota Synthetic Hog Bristle

A better, longer lasting bristle brush that cooperates better than natural bristle. A key advantage is that it won't go limp in water! Modeled after the look and feel of hog bristle, this is a perfect brush for painters switching from oil to acrylic or water-soluble oil. A real dynamo with heavy bodied acrylic and suitable for use with gels and impasto mediums.

Features-Synthetic Hog bristle, nickel ferrule, long handle.
