OUR BEST SELLING OIL!

Gamblin Artists' Oil Colors

Working closely with conservation scientists, Robert Gamblin's Oil Colors use only pure lightfast pigments and alkali-refined linseed oil. The first thing you'll notice is a more granular consistency as each pigment is milled the same number of times, which some artists prefer, because it allows each pigment to retain its individual characteristic - a quality sought after by many traditionalists.

Available in 37 ml. and select 150 ml. tubes.
